## **Barrow Resident Survey**

## 1. Barrow Airport Master Plan Update - Resident Survey

The State of Alaska Department of Transportation & Public Facilities (ADOT&PF) is updating the master plan for the Barrow Airport, a primary, commercial airport that serves as the main hub for the North Slope Borough, Barrow, and surrounding communities. ADOT&PF has contracted with PDC Inc. Engineers to update the master plan.

The master plan update will identify and address the current and future needs of the facility. To prepare the update the project team will assess safety, operational efficiency, and current and forecasted development, land use needs and leasing issues, transportation access, economic development, and local government concerns and goals. Updating the plan is expected to take January 2013 to December 2013.

Your responses, comments and suggestions will be used by the master plan update project team for project purposes only. To follow the project, check the project web site at http://dot.alaska.gov/nreg/barrowmp/

Please complete this survey if you are a Barrow resident.

\*1. We want to keep you informed about the project. Providing your contact information will allow us to contact you for input throughout the Barrow Airport Master Plan Update.
Your name and telephone number are required.
